PROFILE Passionate Licensed Veterinary Technician with 5 years of experience working with cats and dogs in clinic and rescue shelter settings.

EMPLOYMENT HISTORY

Dec 2014 – Dec 2017 **Veterinary Technician, Jody's Veterinary Clinic** Chicago, IL

Jody's Veterinary Clinic is dedicated to providing the highest quality pet care, mainly focusing on cats and dogs, in a professional and transparent environment. As a Veterinary Technician, my daily responsibilities include:

- Conducting initial pet examinations, including interviews with pet owners, reviews of past care plans, completing laboratory tests, and taking diagnostic imaging
- Taking vital signs, collecting samples, and bandaging wounds
- Setting up surgery equipment, assisting with anesthesia, monitoring machines during operations, and cleaning up the area post-surgery
- Ensuring all in-house animals are fed, watered, and kept in a clean environment
- Maintaining documentation and animal care records
- Suggesting preventative and maintenance health plans to pet owners

Jul 2012 – Dec 2014 **Veterinary Technician, Chicago Animal Shelter** Chicago, IL

Chicago Animal Shelter takes in abandoned animals, given them health evaluations, and then prepares them for adoption. As a Veterinary Technician, my daily responsibilities included:

- Facilitating the initial intake medical evaluation, including drawing blood, taking laboratory samples, completing diagnostic imaging, and observing behavior
- Cleaning and grooming animals to check for physical injuries or abnormalities
- Socializing the animals to note behaviors
- Watering, feeding, and ensuring proper cage cleanliness is maintained
- Assisting the veterinarian with spaying and neutering, in addition to inserting a microchip, prior to adoption
- Preparing the animals for surgery by sterilizing the surgical suite, shaving the animal's hair, and administering sedatives and anesthetics
- Working with administrative staff to identify potential adopting owners
- Maintaining proper supply inventories, placing orders, and stocking shelves
- Ensuring machinery and instruments are cleaned and working properly, calling maintenance teams in when necessary
