- Analyzing sales data to review, plan and assist with inventory management.
- Identifying new product opportunities based on in-depth market research.
- Defining project scope, goals, and deliverables to ensure consistency with company strategy and commitments.
- Conducting A/B testing to maximize product efficiency and UX. Increased user engagement by 25%.

### Product Manager at Johnson & Johnson, New York

July 2016 – January 2018

Johnson & Johnson is an American multinational medical devices, pharmaceutical and consumer packaged goods manufacturing company. As a Product Manager, my core activities included:

- Developing marketing programs for several new product offerings that brought in additional revenues of over \$1 million.
- Gathering market research and analytics to recommend product activities.
- Collaborating with marketing partners and stakeholders to deliver integrated plans.
- Implementing an Agile ideation plan to streamline development processes. Saved an overall cost of \$1.2 million.

### Assistant Product Manager at Apple Inc., California

May 2014 – June 2016

Apple Inc. is an American multinational technology company that designs, develops, and sells consumer electronics, computer software, and online services. As Assistant Product Manager, my core activities included:

- Leading 5 cross-functional teams from product conception through launch. Increased team efficiency by 15%.
- Reporting financial and demand forecasts for product lines and updates.
- Partnering with prospective high net worth customers to build and maintain strong, long-lasting customer relationships.
- Monitoring market dynamics to support future marketing plans.
