PROFILE

Highly experienced Construction Worker with over six years of experience in working on high-rise commercial building projects. Adept with complex electrical and plumbing activities and well versed in the full range of building maintenance, following specified protocols and building regulations. Certified as a Master Builder and currently completing a Welding Certificate.

EMPLOYMENT HISTORY

Construction Worker at Group Five Holdings, Farmington Hills

May 2017 – June 2019

Part of the maintenance construction team servicing shopping malls exceeding 100 000 square feet on a weekly basis.

- Conduct manual labor such as digging and shoveling ditches or trenches
- Use hand tools or power operated machinery such as jackhammers, power saws, shovels, picks, and drills
- Responsible for cleaning and maintaining building tools and equipment
- Mixing cement, concrete, and other substances
- Laying bricks, compacting concrete surfaces and plastering of walls
- Accountable for keeping site and grounds at sites clean and neat
- Perform site work in adherence to standard safety procedures
- Involved in heavy duty labor, for example, hauling cement, demolition, welding metals, and masonry
- Clean construction areas daily and wash tools and equipment when required

Site Preparation Worker at Murray & Hobbert Site Consultants

October 2015 – December 2016

Responsible for Hazmat cleaning operations at an average of 5 construction sites per week.

- Prepare working site before building commences by removing potentially hazardous materials and objects
- Unload building materials, tools, equipment and machinery from delivery trucks and distribute them to the appropriate site locations
- Measure mark and record openings, holes, layout and distances on the site surfaces in accordance with project specifications and plans
- Mop, brush and sweep site surfaces and coat objects, floor surfaces, fixtures and walls with appropriate cleaning solutions or protective compounds before construction commences
- Signal and direct equipment operators to ensure correct alignment, movement and adjustment of equipment, machinery and offloading of building materials
- Clean construction areas daily and wash tools and equipment when required
- Accountable for preparing machinery and equipment maintenance prior to commencement of building activities
