Profile

"Leading Software Developer and Engineer with 8 years of work experience leading developing teams in different settings (including remote, international teams). I enjoy coding, testing, and integration. Seeking anew challenges and opportunities to leverage. I am an experienced Certified ScrumMaster (CSM), having successfully worked with service-oriented (SOA) architectures and web services. Holds a BS in CS with many recent study certifications."

Employment History

Software Developer, Johnson & Johnson, San Francisco, CA

NOVEMBER 2017 — NOVEMBER 2019

Johnson & Johnson is a Fortune 500 Medical Device and Manufacturing company in the US. As a Software Developer, I work on their eCommerce platform in an Agile environment. My daily responsibilities include:

- Participating in daily stand up meetings, led by our Scrum Master
- Utilizing the MEAN stack to enhance and maintain our eCommerce platform
- Conducting code peer reviews with other members in my team
- Participating in product demos
- Documenting all code changes, following J&J's change protocols

Software Developer, PIH Unlimited, San Francisco, CA

MAY 2016 — NOVEMBER 2017

As a Software Developer at PIH Unlimited, I worked on a small Agile team in a startup environment to prototype and build mobile applications. My daily responsibilities included:

- Brainstorming with team members to come up with new mobile application concepts
- Working with stakeholders to gather functional and technical requirements
- Creating wireframes and prototypes to test our ideas
- Writing code to develop iOS and Android applications, primarily using Java and Swift
- Participating in MVP and product demos
- Utilizing automated and manual methods to test our code
- Facilitating releases of software upgrades

IT Intern, Fidelity National Financial, San Francisco, CA

JANUARY 2014 — MAY 2016

At Fidelity National Financial, I participated in an IT internship, during which I rotated between their infrastructure, data analytics, and software engineering departments. My daily activities included:

- Shadowing senior team members to get a feel for their day-to-day responsabilities
- Taking on small software development projects then presenting my work to the leadership team
- Assisting with process improvements, making suggestions on workflow changes where needed
- Participating in weekly meetings with the entire internship team

Education

BS in Computer Science, San Francisco State University, San Francisco, CA

NOVEMBER 2017

MAY 2020 — MAY 2020
