Hugh Newman

.NET Developer

Los Angeles, United States   email@email.com

Profile

An experienced .NET Developer with a solid work tenure in a wide range of .NET development aspects for business applications. Highly adept in all development stages, from initial analysis through design, prototyping, implementation, and execution. Extensive coding experience using ASP.NET 2.0, VB.NET, HTML, and XML. Currently completing a Master's Degree in Software Development and Machine Learning.

Employment History

Jan 2019 — Present

Devonport

.NET Developer at SGA Courier Services

Implemented a smoothing functionality into a client CAD tool improving UX (User Experience) scores by 38%

- Extracting core use cases from requirement specifications
- Building end to end applications by using entity framework coding workflow to build models
- Use ASP.NET Web API to build RESTful API's
- Creating visually appealing user interfaces with CSS
- Improve application usability and tweak security features on vulnerable software
- Create robust, clean, and maintainable code
- Refracting and use TFS to create code versions
- Implementing decoupled and clean architecture for applications
- Writing unit and integration tests and automate them
- Assisting in developing software solutions for mobile customers
- Developing, designing, testing, maintaining, and supporting web applications for clients

Jan 2016 — Dec 2018

Jackson

.NET Developer at PNG Financial Services Group

Achieved a 99% client satisfaction score for 20 maintenance projects completed on various .NET websites by utilizing ASP.NET MVC, jQuery, HTML, and CSS.

- Analyzing customer requirements and create applications accordingly
- Evaluating and researching technologies and products related to software development
- Developing the activities and procedures required to create system architecture and user-end applications
- Use .Net web frameworks coupled with C# during development activities
- Use object-oriented programming for writing reusable libraries

Skills

NET languages (e.g. C#, Visual Basic .NET) and HTML5/CSS3

● ● ● ● ● ● ● ● ○ ○

Design & Architectural Patterns (e.g. Model-View-Controller (MVC)

● ● ● ● ● ○ ○ ○ ○ ○

Modules and Plug-ins.

● ● ● ● ● ● ● ● ● ●

C#, VB.NET, MVC

● ● ● ● ● ● ● ● ● ●

Inheritance, Generalization, Composition, and Dependency

● ● ● ● ● ● ○ ○ ○ ○

OOP (Object Oriented Programming)

● ● ● ● ● ● ● ○ ○ ○

- Designing various architectural patterns for each development project including concurrency patterns

Jan 2012 — Dec 2015
Seattle

.NET Developer at Coding Gurus

Created an iOS notes app that uses persistent data storage for archiving that received over 100k downloads in two weeks

- Using Microsoft SQL Server and Windows Presentation Framework as per the project needs
- Creating database schemas that is representative and supportive of business processes
- Implementing automated testing platforms and unit tests
- Employing code versioning tools such as Git, SVN, and Mercurial
- Creating applications and n-tier systems that utilize extended features, including LINQ, Entity Framework, and generics to integrate object-oriented techniques and data-manipulation capabilities
- Creating applications and n-tier systems that utilize extended features, including LINQ, Entity Framework, and WebAPI/WCF to integrate object-oriented techniques and data-manipulation capabilities
- Creating data-driven web applications to promote TDD and generate control of UX and UI

Education

May 2018 — Jul 2020
Millau

Stratford University

Bachelor of Science in Software Engineering

Projects Completed:

Overhauled the university's alumni fundraising site with .NET, which boosted alumni use by 25%

Tutored ten fellow students in ASP.NET MV

Jan 2017 — Jun 2017
Online

Computer Learning Center

Certified JavaScript, HTML5, and Microsoft Developer

Jan 2016 — Jun 2016
Online

Torque IT

Certified Specialist in C# Development

Jan 2015 — Jun 2015
Online

Microsoft Academy

Certified Specialist in Visual Basic Development
