PROFILE

A Site Supervisor able to bring effective and goal-oriented leadership and organization to construction worksites. Experienced at interviewing and selecting construction workers, creating construction schedules, and monitoring worksites to ensure safety and compliance regulations are met. Specialized in conducting thorough equipment and infrastructural inspections.

EMPLOYMENT HISTORY

Site Supervisor, Lockheed Martin, Buffalo Grove

FEBRUARY 2021 — PRESENT

Tasked with managing a 200 sqm site with 200 contractors at any given time. Responsibilities include management, running job office, organization, reading blueprints, filing computer progress reports, and scheduling subcontractors.

- Organized and scheduled several subcontractors to meet hard deadlines and tight schedules.
- Demonstrated strong work ethics and quality control.
- Effectively balanced the high demands from senior management and the project manager's needs in different areas and states.
- Manage the employment of our night shift workforce.
- ·Assist and perform maintenance work on equipment.

FEBRUARY 2021 — FEBRUARY 2021

Responsible for overseeing the work of subcontractors to ensure work was completed accurately and that all project deadlines were met, conforming to building compliance and safety regulations issues by the municipality.

- Reviewed and analyzed site plans and blueprints to ensure compliance with plan specifications.
- Controlled production costs through review and approval of timesheets, production and service invoices, delivery, and inspection sheets. Monitored and tracked costs to avoid any overruns.
- Implemented pre-construction and pre-settlement meetings with home buyers. Resolved customer service issues and production problems during the construction phase to ensure customer satisfaction.
