Profile

Efficient Material Handler with three years of experience. Skilled in kitting and Lean principles, looking to deliver materials excellence at FedEx. At Arretto Group, prepared 2,700 production kits with no faults in two years. Created a mistake-proof device for kitting that was adopted by management and spread to 33 other materials handlers, slashing kitting errors to zero.

Employment History

Material Handler, Amazon

Jan 2020 — Jun 2021 Mogoditshane

Shipped industrial goods, including hazardous materials, to sites across the region. Drove delivery trucks, loaded and unloaded freight, and ensured proper handling of materials at all times. Key outcomes include:

- Responsible for overseeing all outgoing and incoming shipments that were loaded and freighted between trains and airlines.
- Verified orders and arranged delivery materials to the loading platform in the warehouse.
- Generated bills of lading to set tariffs and shipping charges.
- Maintained stocked produced formulations,shelves outlines, and audited transportation documents.
- Tasked with the examination of national and international inbound and outbound transportation freight.

Material Handler , Anglo American

Jan 2019 — Jul 2020 Amberg

Provided delivery services for a shipping and receiving company that distributed a wide variety of industrial goods. Handled fragile and hazardous materials as needed.

- Processed all transportation-related documents.
- Verified orders arranged them for delivery to the client.
- Verified all goods that came through our company and organized travel routes.
- Completed all personal property outbound transport documents.
